

Ultrasonic Weather Station

Wind speed and direction, humidity, temperature, pressure

Model : KW-360

- Wide operating voltage range from 10.5VDC to 40.5VDC
- Two electrical output, RS485 and RS232
- Configurable baudrate up to 38400 (4800, 9600, 19200 and 38400)
- Standard NMEA sentences output, \$MWV and \$XDR
- Can be used in PC with supplied PC software
- No moving parts, does not need constant maintenance
- No calibration is needed
